Official 007 Branded And Licensed!

MULTI-FUNCTION COVERT CIGARETTE LIGHTER DIGITAL CAMERA

-Flip Open Covert Quick Shot - Video Clip Recorder - Voice Recorder - Web Cam - Data Storage Unit - And Special Auto Surveillance Mode To Snap Evidence When You Aren't Even There!

This tiny digital covert camera masquerades as a Zippo lighter. In covert mode, this amazing multi-function camera let's you flip open the lighter and snap a picture. It's a small miracle packed with 7 different functions: It's a still camera; it's a video clip recorder; it's a web camera; it's a voice recorder; it's a data storage device; it gives you a covert quick-shot feature (just flip the lighter lid to shoot, even when the camera is off). Also vital for every investigator, there is what is called a surveillance mode. In Surveillance mode you can set the camera up to shoot at pre-set intervals, so this inconspicuous little gadget can keep its digital eye out for you, even when you're not there!You will just love the quality of the camera, the covertness of it's ability and it's ease of use! Look at these features:

Amazing Features

Tiny And Covert!

Quick Shot: Flip the top, click the button and close the case. No switching on required

High Resolution Digital Still Camera: Internal memory holds up to 150 pictures @ 640 x 480, up to 310 pictures @ 320 x 240

Surveillance Mode: Record images at preset time intervals; perfect for covert observation for up to 19 days

Amazing ST Micro Technology: allows for high quality image capture with incredibly small file sizes.

Video Clip Recording with Sound: Make undercover recordings of up to 30 seconds duration

Data Storage and Transfer: Move important data between computers utilizing your ZipCam camera as a portable hard disc drive (8MB total storage)

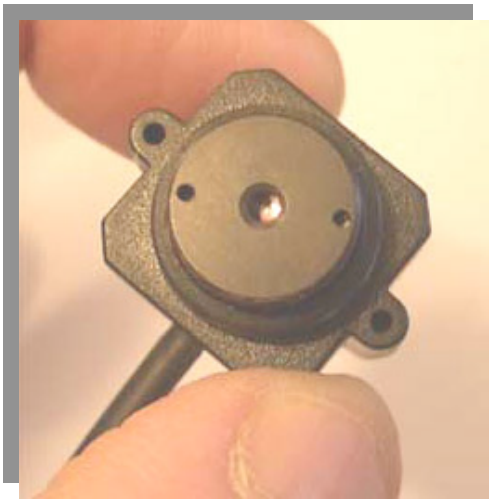
SpyCam 2004 !

A New Generation Of Micro Wireless Video Cam
World's Smallest Wireless Color Video Micro Camera Kit

New Generation- Smaller, More Powerful, Better Quality, Less Expensive!



Capture your moment with colors using one of the latest technology and version available for a miniature camera in the market. What's more...you can listen with the built-in mic. This product employs CMOS image sensor and can be matched with lenses of different angle focuses or specifications according to the user's requirement. The camera comes with a metal bracket mounting / or plastic mounting and can be manually focused for best viewing angle and picture. Compatible in the PAL or NTSC system. Suitable for video conferencing, video phone, video doorbell, video electronic mail, pc multimedia, toys, security monitor, medical instrument, vehicle rear view, etc.

The camera can send video and Audio for 8 hours non-stop if powered by a 9-volt alkaline battery (Duracell/Energizer). No work duration limited when it is hooked up with a AC-DC adaptor. Installation is simple with an ordinary television. If needed, the video can be recorded in an ordinary VCR without adding any other accessory. The camera can run 24-hours without over heating.!

Total Package includes all items below

1. **1.2 - 2.4 GHz Wireless Color Camera.**
2. **Wireless 1.2 GHz Wireless Receiver (up to 1000 feet range can connect 4 cameras in the same time)**
3. **9v battery clip 2 pcs.**
4. **2pcs DC Adaptors (9V for wireless camera, 12V for receiver use.)**
5. **1pc RCA cable**
6. **One instruction manual**
7. **All together in a nice gift box.**

New Micro Mini Pocket Sized
40 Hour Digital Video Recorder
Is Your Ultimate Covert Video Recording Solution!

The amazing new Micro Mini MPV-330 "pocket size" digital video recorder is your ultimate solution for covert video evidence recording. Smaller than a standard "Walkman" type cassette player at an incredible 5.1" x 3.3" x 1.3" and weighting in at only 13 ounces makes this unit the perfect "body worn" surveillance recorder. This unit features an internal 20Gb mini 2.5" hard drive that records 40 full hours of real time color video (Mpeg4) and audio. Standard RCA input jack for quick and simple connection of your video camera. Recordings may be viewed by the built-in 3.5 inch full color TFT LCD or an external monitor or TV via RCA output jack. A full function "business card size" IR remote control is included for ease of viewing. MPV-330 records for four hours per charge of the built-in rechargeable lithium ion battery pack. The unit can also be utilized as an external hard drive to store or read data or image files via USB interface. Unit includes IR remote controller, AC adaptor/recharger, RCA connector cables, mini USB 2.0 cable, earphone, user manual, driver CD and warranty.

NEW GENERATION MICRO DIGITAL VIDEO CAMCORDER
SPECIAL INTRODUCTORY PRICE ONLY: $295.00

DIGITAL CAMERA/BINOCULARS

The perfect gadget for the hunter, amateur astronomer and bird watcher is finally here. Now you can capture the image in 300K in high resolution and magnify it 8 times optically and up to 72 time digitally. The perfect gift for soccer moms. Imagine that for the first time you can watch the game from a distance and capture that perfect goal in memory. If it was off-side you can always crop the image with the "Photo Manager" software and not tell anybody for the next 20 years.

Key Specifications and Special Features

NB-300 8X30 300K pixel sports a more sensitive CMOS sensor that can take pictures in darker environment. 8MB of SDRAM can store up to 120 pictures in high resolution mode (400+ in Low Res.). Older models can only capture 40 pictures.

The power consumption is 3 to 4 times less than previous modes preserving battery life.

"Mass Storage Device" can immediately recognize whenever the NB-300 camera binoculars are connected to the PC via the provided USB cable and download the images. Some older models experience download difficulties.

"Photo Manager" software is included. The "Photo Manager" software can automatically enhance the image when you download it to your PC and give you a crisper image.

MICRO PALM-SIZED SURVEILLANCE BINOCULARS
SIX MILE SURVEILLANCE ZOOM BINOCULARS
SuperZoom™ 20 to 80x25mm
With up to 80 times power
Superzoom Binoculars are the most powerful compact binoculars on the market!

The unique **SuperZoom™** compact binocular allows you to view at 20x magnification and then zoom-in for pinpoint accuracy to 80x power, without ever losing sight of you object. The Z-80 Superzoom™ has hight performance prisms and fully coated lenses that provide exceptionally sharp, high-contrast images.

VERY COMPACT YET AN AMAZING 80X ZOOM!

Ultralight Superzoom compact binoculars have a higher zoom capacity than any other pair of compact binoculars on the market. They allow you to view at 20x magnification and then zoom in for pinpoint accuracy to 80 power, without ever losing sight of your object. Just the binocular for surveillance work! Complete with case, neck strap, lens cap and tripod adapter, the dynamic Superzoom high performance prisms and super, fully-coated lenses that provide exceptionally sharp, high-contrast images. Plus, these state-of-the art binoculars weigh less than 13 ounces and are small and durable enough for long-lasting use anywhere.

Take Control.The Superzoom's easy-to-use manual zoom lever puts you in control, letting you zoom in or out with the slightest touch of your finger. The superb specifications, utilizing BAK4 prisms, along with the precision and craftsmanship of the Superzoom Z-80, will ensure excellent performance under the most demanding conditions. If handled with care, the Superzoom Z-80 will provide years of trouble free-service.

FEATURES AND SPECS

Model: Z-80
Magnification: 20-80 power
Objective Lens Diameter: 25 mm
Minimum Focusing Distance: 13 feet
Prism Type: BAK-4 porro
Field of View: 98/42.2 feet at 1,000 yards
Weight: 12.5 ounces / 312 grams
Accessories: Pouch Case,Strap, Lens Cloth, Tripod Adapter

Seeing Eye to Eye.The binoculars' ultra compact zoom is fitted with rubber eye cups designed to exclude extraneous external light. If you wear glasses, simply roll down the eye cups to bring your eyes closer to the binoculars' lens for improved field of vision.

Up to 20x to 80x magnification sets the Superzoom Z-80 apart in a league of its own compared to other compact binoculars. With an objective 25mm lens and a field of view (m/1000m) of 30m to 13m, these powerful binoculars are a "best buy" worth more than their price.

SMARTEYES!

COVERT VIDEO CAMERA, DIGITAL VIDEO RECORDER AND MOTION DETECTOR TRIGGER THAT RECORDS ONLY WHEN IT DETECTS HUMANS!

No Need to hassle with complicated camera and VCR wiring or wireless cameras that transmit your images all over the neighborhood! These new Covert Video Camera/DVR (digital video recorder) are completely self contained, totally secure, and easy to use. All functions of the products work normally and the hidden B&W low light - high resolution camera is totally invisible.

All you do is touch the "Arm" button on the convenient remote control. Covert Camera will beep once to verify command and quality black & white video recording will begin the instant motion is detected and will continue until 15 seconds after motion ceases. When you are ready to review your video images, simply press the "disarm" command on the remote control and remove the "postage stamp size" MMC card from it's hidden compartment on back of the clock.

To playback images, an included MMC card reader connects to the USB port of your computer or laptop. Install the card, click on the MMC Icon and a complete list of images, including time and date stamp will appear on your screen. "Click" on any image and the video stream will play from that point on. You can even speed up or slow down playback. You can save the card or download your images to CD, hard drive, Zip, or any other media of your choice. MMC card can be quickly erased and reused again and again.

User options can be easily changed via the MMC card reader and your computer. Images can be recorded as fast as 3 frames per second (fps) or as slow as 1 frame per minute. Record duration after detected motion is also user programmable. Included 16Mb MMC card will record 3,000 images. Optional 64Mb card will record 12,000 images. Larger cards (128Mb, 256Mb and 512Mb) will increase image capacity accordingly.

System includes product with hidden covert Camera/DVR, MMC card reader with USB cable and software, 16Mb MMC card, complete easy to understand instruction book and MC/Clock cam software. Everything you need to plug unit in and start using instantly.
